

AMENDMENTS TO THE CLAIMS

The claims in this listing will replace all prior versions, and listings, of claims in the application.

LISTING OF CLAIMS

1. (Canceled)

2. (Previously Presented) A thumb pick for a guitar, comprising:

a pick body, comprising a base end portion configured to contact a thumb, and a protrusion portion integrally extending from the base end portion and configured for picking strings;

a belt body, separate from the pick body, which fixes the pick body to the thumb, wherein two end portions of the belt body adjustably connect to the pick body;

a cut-out portion extending from the protrusion portion to the base end portion; and

a tongue provided inside the cut-out portion, an end portion of the belt body detachably connecting to the tongue.

3. (Currently Amended) A thumb pick for a guitar, comprising:

a pick body, comprising a base end portion configured to contact a thumb, and a protrusion portion integrally extending from the base end portion and configured for picking strings;

a belt body, separate from the pick body, which fixes the pick body to the thumb, wherein two end portions of the belt body adjustably connect to the pick body;

a curved portion formed at an end of the base portion and configured to contact a side of the thumb; and

an engaging portion protruding from the curved portion, an end portion of the belt body adjustably connecting to the engaging portion and comprising a plurality of slits configured to engage the engaging portion.

4. (Previously Presented) A thumb pick for a guitar of claim 2, further comprising a curved portion formed at an end of the base portion and configured to contact a side of the thumb, and an engaging portion protruding from the curved portion, an end portion of the belt body adjustably connecting to the engaging portion.

5. (Canceled)

6. (Previously Presented) A thumb pick for a guitar of claim 4, wherein an end portion of the belt body comprises a plurality of slits configured to engage the engaging portion.

7-11. (Canceled).

12. (New) The thumb pick for a guitar of claim 2, wherein perforations are formed in the pick body, arranged in a pair of lines extending from the cut-out portion, which are configured to allow an extension of the cut-out portion.

13. (New) The thumb pick for a guitar of claim 2, wherein an end of the tongue comprises a hook, to which an end portion of the belt body detachably connects.

14. (New) The thumb pick for a guitar of claim 3, wherein the engaging portion comprises a hook, to which an end portion of the belt body detachable connects.

15. (New) The thumb pick for a guitar of claim 4, wherein the engaging portion comprises a hook, to which an end portion of the belt body detachable connects.
